Water Saving Hose Nozzle		<p>This heavy-duty Deluxe Seven Spray Hose Nozzle features a heavy-duty, durable metal body with a cushioned dial ring and grip for long life. Seven water saving spray settings that range from full force to a water saving mist enabling more water efficiency, with less water waste. Pressure compensated for consistent water savings regardless of water pressure.</p>
Chrome Showerhead		<ul style="list-style-type: none"> • Multi-mode, adjustable spray selections offer regular, massage and combo settings. • Pressure compensator provides consistent spray velocity over a wide range of water pressures for consistent performance and customer satisfaction. • Energy efficient non-aerating spray reduces heat loss and increases comfort. • 2.0 GPM MAX
1 Standard Bath Faucet Aerator & 1 Kitchen Faucet Aerator		<ul style="list-style-type: none"> • Standard Faucet Aerators are water saving, increase spray velocity, reduce splash. They are great for any application including both the kitchen and bathroom sinks • Deluxe Dual Swivel Spray combines all the features one could want in a water saving faucet aerator; new 1.5 gpm ultra efficient flow rate, volume control for reduced flow with the flip of a finger, dual spray pull down for wide full force, energy efficient multiple stream spray and up for a splash-free bubble stream and 360 degree swivel for optimum convenience. Makes any kitchen faucet more water and energy efficient.
Dish Squeegee		<p>The Dish Squeegee™ makes doing dishes simple, faster and more eco friendly. According to the US EPA, pre-rinsing dishes prior to dishwasher use wastes water. Experts estimate pre-rinsing dishes prior to putting them in the dishwasher can waste up to 6500 gallons of water a year! Not rinsing pots, bowls and plates prior to putting them in the dishwasher can also waste water when dishes emerge unclean. Simply squeegee away the mess without pre-rinsing to save water, the energy used to heat hot water, time, and money. The Dish Squeegee™ is made of soft and pliable silicone that won't scratch fine cookware or Teflon surfaces. No dishwasher, no problem! Squeegee away the mess for efficient dish doing prior to washing. The Dish Squeegee™ is dishwasher safe and won't absorb germs or bacteria like a household sponge. Take the Dish Squeegee™ challenge and keep the faucet off to break the habit of wasteful water use and squeegee off dishes prior to putting them in the dishwasher to save water, energy, time, and money.</p>
Toilet Tummy		<p>The Toilet Tummy™ is a globally recognized water saving product that's effective, low in cost, maintenance free and user friendly. Invented 20 years ago, millions have been sold and remain in successful operation saving water every day. Just fill with water and hang on the inside of the toilet tank wall then forget about it. Saves an approximate 80 to 160 oz. of water per flush. The Toilet Tummy™ is lightweight, and never needs maintenance. With the average person flushing a minimum of six times a day the Toilet Tummies™ water savings add up .</p>
Leak Detection Tablets		<p>Leak Detection Dye Tablets are used to identify leaks in your toilet tank that can waste thousands of gallons of water annually. Worn, old and poorly made toilet flappers can leak undetected allowing water to continuously flow down the drain. Leak Detection Dye Tablets, when placed in the toilet tank, dissolve, turning the water blue. If blue water appears in the bowl, you have a leaky flapper that needs to be replaced.</p>
Outdoor Moisture Meters		<p>The Moisture Meter promotes healthier lawns, gardens, shrubs and helps save water by eliminating improper watering, a major cause of water waste. It accurately measures the moisture in the soil at the root level where it counts.</p>
